

When a Guide Dog is in a coat or harness, it is working.

Remember, Guide Dogs can go anywhere!

Don't
feed a Guide Dog
treats or snacks.

Do
always ask permission
from the handler if you
need to interact with
the Guide Dog.

Don't
distract a working
Guide Dog by patting
them, or calling out
at them.

Do
always talk to the
person directly, not
to the dog.

Don't
grab the person or
dog in harness.

Do
make sure your own
pet dog is on a leash
and under control
around any Guide Dogs.

Don't
take pictures of a
working Guide Dog
without asking first.

Do
make a handler and their
dog feel welcome, as
Guide Dogs can legally go
anywhere their handler can.

**Guide
Dogs.**

Thank you for helping our
dogs make a difference.
